NIRVANA

BRAND & DESIGN SYSTEM · V0.1

Designing with the Nirvana look

A working reference for slides, documents and internal tools, reverse-engineered from the live nirvanatech.com site. Colors, type and components below are measured from the site's own CSS.

Not an official brand book. Confirm with Nirvana marketing before external use.

What the brand feels like

Five observations from the site, turned into rules we can apply to any slide, memo or dashboard.

01

Calm confidence

Lots of white space, few colors, no visual noise. The product (data, savings, speed) carries the message.

02

Serif for the claim, sans for the work

Instrument Serif states the big idea or the big number. Manrope does everything else.

03

Navy is the voice, gold is the signature

Deep navy for text and primary actions. The sun-gold appears in the logo and sparingly as a highlight.

04

Numbers are heroes

Key metrics (32B+ miles, 20% discount) are set huge in serif with a short sans caption underneath.

05

Soft, rounded, approachable

Pill buttons, rounded cards and pale tinted chips keep a technical subject friendly.

Voice

Plain, benefit-first, specific. Lead with the outcome for the fleet, back it with a number, skip jargon.

Logo and mark

The mark is a sun cresting a road-like horizon. Use the full lockup by default and the mark alone only where space is tight (favicons, avatars, small footers).

Clear space ≥ half the logo height on every side. Minimum width 96 px / 1 in.

Mark only

Logo colors (from the site's SVG)

Sun gold	Nirvana navy
#FFB900	#040C21

DON'T

- × Recolor the sun or wordmark
- × Place on busy photos without a solid backing
- × Stretch, rotate, outline or add effects
- × Invent a white version; request the official reversed file

Palette

Navy-led and mostly neutral. Hex values are the site's own CSS variables. Rough budget per page: 70% white and neutrals, 20% navy, 10% accents.

PRIMARY

Nirvana Navy	Navy	Navy Blue	Deep Navy	Sun Gold	Gold	Light Gold
#040C21	#003366	#1C2E52	#10285B	#FFB900	#FBC674	#FEF7EB
Logo wordmark, darkest text, dark sections	Primary buttons (Find an Agent), tags text	Secondary dark buttons (Discover)	Charts, emphasis panels	Logo only, plus rare highlights	Warm highlight, illustration	Alternate section background
--dark-navy	--navy	--navy-blue	--deep-navy	logo SVG	--gold	--light-gold

NEUTRALS

Headline	Graphite	Neutral 600	Grey	Neutral 200	Border	Neutral 100
#1C1F26	#363D4D	#555B67	#9B9EA6	#E3E5E8	#E6E7E9	#F5F6F7
Headings, big numbers	Body text, links	Secondary text	Captions, meta	Secondary buttons	Hairlines, card borders	Panels, table stripes
--headline	--graphite	--neutral-600	--grey	--neutral-200	--border-color	--neutral-100

ACCENTS (USE SPARINGLY)

- Chip blue #C5D3F5
- Periwinkle #ADC2F1
- Light blue #80A7D9
- Teal #00A89C
- Turquoise #C8ECE9
- Coral #F05A24

Two typefaces, clear jobs

Both are free Google Fonts. On the site the serif is always regular weight; hierarchy comes from size, not boldness.

DISPLAY

Instrument Serif

Aa Bb Gg 32B+ $40M 20%

Heroes, section statements, big stats, pull quotes. Regular 400 only, tight tracking (-1%), never body copy.

TEXT & UI

Manrope

Regular 400 · body
Medium 500 · H2
SemiBold 600 · H3, labels, buttons
Bold 700 · emphasis

Fallbacks: Arial, sans-serif (site) · Calibri/Arial in Office files.

TYPE SCALE (WEB PX; SITE USES A 16 PX BASE)

128	Display stat	Instrument Serif 400 · 1.0 lh	64	Hl hero	Instrument Serif 400 · -1 px
48	H2 statement	Instrument Serif 400 · 1.2 lh	36	H2 section	Manrope 500 · 1.2 lh
20	H3 card title	Manrope 600	16	Body	Manrope 400 · 1.5 lh · Graphite
14	Small / meta	Manrope 400 · Neutral 600	14	Label / chip	Manrope 600 · Navy

Building blocks

As implemented on the site. Reuse these shapes in slides and tools rather than inventing new ones.

BUTTONS

Find an Agent | Report a Claim | Discover → | Our Insurance →

Primary: Navy #003366 pill, white Manrope 600. Secondary: Neutral 200 pill, navy text. Text links carry a → arrow. Fully rounded (999 px).

CHIPS / TAGS

Safety | Engineering | Newsletter

Chip blue #C5D3F5 at 80%, navy text, 600 weight, pill radius.

STAT BLOCK

32B+
miles of telematics data

20%
upfront safety discount

CARD

Seamless Claims

Short benefit statement in Graphite, two to three lines at most.

Learn More →

BANNER

Building the first AI-native insurer

Soft periwinkle field with one sentence and one dark pill CTA. Radius 8 px, generous padding.

Discover →

Space, radius and pictures

RADIUS TOKENS

8 · small

10 · default

16 · cards

24 · large

pill · buttons

SPACING

4 8 16 24 32 48 64

8-pt rhythm. Sections breathe: ~56–96 px vertical padding on web, one idea per slide. Hero content is centered; everything else is left-aligned on a 12-column grid.

IMAGERY

Photography of trucks and drivers in wide landscapes, warm daylight, no stock-smile clichés. Product shots use clean UI on tablets. Decorative shapes: soft quarter circles in turquoise/mint with a fine grain (About page).

Quarter-circle motif

Charts and status in the brand

Our own extension for internal tools (not on the website). Keep charts quiet: neutrals for context, navy for the main series, color only where it means something.

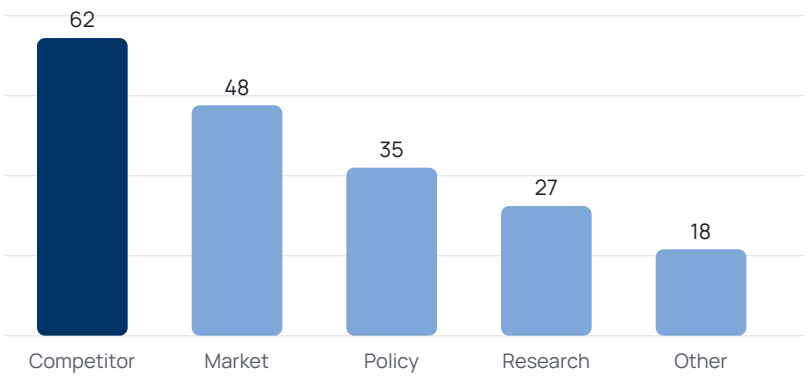
SERIES ORDER

1 Navy
2 Sun gold
3 Teal
4 Light blue
5 Coral
6 Grey (other)

STATUS (SEMANTIC, SEPARATE FROM BRAND ACCENTS)

Good / tailwind
Watch / warning
Critical / headwind
Info / new

EXAMPLE: BAR CHART



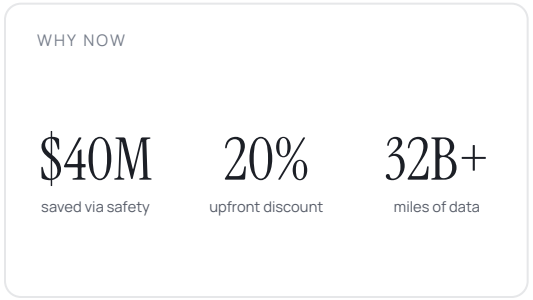
RULES

- Big number in Instrument Serif, caption in Manrope underneath
- One highlighted series in Navy; the rest in Light blue or Grey
- Hairline gridlines in Border #E6E7E9; no chart borders or 3D
- Tabular numerals; label values directly instead of legends
- Status pills use the semantic set, never the logo gold

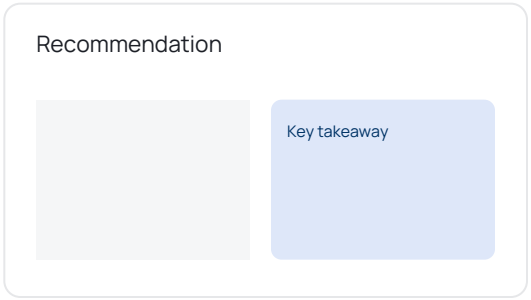
Slides and documents

Title

Section divider



Stat / proof



Content + takeaway

SLIDE RULES

- 16:9, white background; navy section dividers only
- Title in Instrument Serif 36–44 pt; body Manrope 14–18 pt
- One message per slide, stated as the title
- Max one accent color per slide besides navy
- Logo bottom-left on title slide only; page numbers in Grey
- Sources in 9 pt Grey at the slide foot

DOCUMENT RULES

- Manrope 10.5–11 pt body, 1.5 leading, Graphite
- H1 Instrument Serif 28 pt; H2 Manrope 600 14 pt
- Tables: Neutral 100 header, hairline rows
- Callouts: Light Gold or Chip-blue panel, 8 px radius

Copy-paste tokens

Drop into any HTML page, dashboard or artifact. Office users: set theme colors and fonts from the same values.

SOURCES & CONFIDENCE

Measured on Oct 15, 2026 from nirvanatech.com: CSS custom properties, computed styles of live elements, and the logo SVG. Type sizes were normalized from an 800 px-wide viewport. The data-viz palette, status colors and slide/document rules are our extensions, not Nirvana's.
